 - Bootstrap
 - Gulp.js

Software Skills

- Experienced in the following software packages
- Adobe Illustrator
 - Adobe Photoshop
 - Adobe Indesign
 - Sketch
 - Adobe XD
 - Solidworks
 - Keyshot
 - Visualcam
 - Trello
 - Sublime / Visual Studio Code

Personal Skills

- Reliable
- Attention to Detail
- Creative Thinker
- Problem Solver
- Team Player
- User/Customer Focused

Professional Experience

Chant Hardware 2014 - Current

Position: Industrial/Graphic Designer

Chant Hardware is a designer and manufacturer of architectural hardware for niche residential, commercial and marine applications.

Employed as an Industrial/Graphic designer, I added value to their projects by offering custom designs, finishes and variations to their extensive catalogue.

Designing and drafting 3D CAD models using solidworks and producing engineering drawings for manufacturing and photo realistic renderings for publishing material.

To aid Chant I conceptualised and prototyped new products using 3D printing and CAM CNC.

I created all visual content for their new website, renders and publishing material, rebranding their image to a more contemporary visual.

Visit chanthardware.com to view their extensive product range.
